Onyejekwe Ugonna

Senior Frontend Developer / Frontend Team Lead

I am a Senior Frontend Developer and Frontend Team Lead with **5+ years of experience** building scalable, high-performance web and desktop applications across **fintech, e-commerce, SaaS, and mobility platforms**. I specialize in **React, Next.js, and TypeScript**, with a strong focus on **frontend architecture, performance, accessibility, and testing**.

Beyond hands-on development, I take ownership of **technical direction**, **code quality**, and **team growth**, working closely with product managers, designers, and backend engineers to deliver reliable, production-ready solutions.

Skills

Frontend Technologies

- React.js, Next.js, TypeScript, JavaScript
- HTML5, CSS3, SCSS, Tailwind CSS

State & Data

- Redux Toolkit, Zustand
- REST APIs, API Integration

Testing & Quality

- Jest, React Testing Library
- Unit & Component Testing
- Accessibility (WCAG, ARIA)

Performance & Architecture

- Frontend Architecture

- Web Vitals (LCP, CLS, FID)
- Code Splitting, Memoization

Backend & Tools

- Node.js, Express.js, MongoDB
- Electron
- Git & GitHub
- Figma
- ShadCN

Experience

Assets Microfinance Bank, Nigeria — *Senior Frontend Developer / Frontend Lead*

2025 - PRESENT

Assets Microfinance Bank is a financial services institution providing digital banking, lending, and financial solutions to individuals and small businesses.

- Lead frontend development and **technical direction** for banking applications using **Next.js, React, and TypeScript**.
- Defined frontend **architecture, coding standards, and best practices** across the team.
- Implemented **unit and component testing** with **Jest and React Testing Library**, improving release stability and confidence.
- Built reusable, accessible UI components aligned with **WCAG and ARIA standards**.
- Optimized performance using **code splitting, memoization, and Web Vitals**, improving load times and user experience.
- Mentored and supervised **junior frontend developers**, conducting code reviews and technical guidance.
- Acted as a bridge between **product, backend, and frontend teams**, ensuring timely and high-quality delivery.

Okay-Furniture Nigeria — *Senior Frontend Developer (Contract)*

2024 – 2025

Okay-Furniture is a retail and distribution company focused on furniture sales, inventory management, and point-of-sale operations.

- Developed **Store Pilot**, a cross-platform desktop application using **Electron and React**, designed to streamline inventory and sales management.
- Designed and implemented an intuitive, responsive UI for **stock tracking, goods monitoring, and receipt generation**, improving daily operational efficiency.
- Automated the tracking of incoming, outgoing, and returned goods, reducing manual processes and minimizing errors.
- Optimized application performance and responsiveness across multiple screen sizes using modern frontend performance techniques.
- Worked closely with business stakeholders to translate operational requirements into scalable frontend solutions.

Urbango, Nigeria — *Senior Frontend Developer (Contract)*

2024

Urbango is a ride-hailing and mobility platform providing transportation services through a web-based system and administrative dashboard.

- Developed the Urbango marketing website and a comprehensive **admin dashboard** for managing drivers, rides, payments, and customer support.
- Built responsive, reusable UI components using **React, Tailwind CSS, and ShadCN**, ensuring consistent design and optimal performance across devices.
- Integrated **real-time data fetching, authentication, and payment processing systems** in collaboration with backend teams.
- Implemented a scalable admin panel for **ride bookings, user management, and system analytics**, improving operational visibility and efficiency.
- Applied frontend architecture and performance best practices to ensure long-term maintainability.

Gbikna, Nigeria — *Senior Frontend Developer (Full-time)*

2022 – 2024

Gbikna is a technology company building e-commerce and digital commerce solutions. One of its products, **Olivia Stores**, enables merchants to create and manage online stores similar to Shopify.

- Developed customizable **e-commerce templates** for Olivia Stores, enabling merchants to create and manage online stores efficiently.
- Implemented **dynamic theme customization**, allowing store owners to modify layouts, colors, and branding without coding knowledge.
- Integrated **secure authentication, payment gateways, and product management APIs** with backend systems.
- Redesigned and rebuilt Gbikna's legacy website using modern frontend technologies, significantly improving performance, UI/UX, and scalability.
- Collaborated with cross-functional teams to deliver reliable, production-ready frontend solutions.

Unique Limited, Nigeria — *Frontend Developer (Full-time)*

2021 – 2022

Unique Limited is a digital agency providing custom website and web application development services for businesses across various industries.

- Developed and maintained custom websites for multiple clients, ensuring **high performance, responsiveness, and modern UI/UX design**.
- Collaborated with designers and backend developers to integrate **REST APIs, authentication systems, and dynamic content**.
- Ensured **cross-browser compatibility, mobile responsiveness, and accessibility compliance** across all projects.
- Debugged, optimized, and enhanced existing applications, improving performance, security, and scalability.

Best Tech Limited, Nigeria — *Frontend Developer Intern (Part-time)*

2020 - 2021

Best Tech Limited is a technology company focused on training and developing software solutions

while mentoring aspiring developers.

- Built responsive and user-friendly web applications using **HTML, CSS, JavaScript, and React**.
- Assisted in implementing **state management, API integration, and performance optimization** techniques.
- Worked closely with senior developers to learn best practices for **code structure, debugging, and collaboration**.

Achievements

Responsive Web Design Certificate — *FreeCodeCamp*

I earned the **Responsive Web Design Certificate** from FreeCodeCamp, mastering **HTML, CSS, JavaScript**, and modern techniques like **flexbox, CSS Grid, and media queries** to build fully responsive websites.

JavaScript Algorithms and Data Structures (BETA)

Certificate — *freeCodeCamp*

I obtained the **JavaScript Algorithms and Data Structures (BETA) Certificate**, gaining expertise in **algorithmic problem-solving** and optimizing code performance using **arrays, linked lists, and other core data structures**.
