## Professional Summary

Frontend Engineer with experience building scalable web and mobile applications using React, Next.js, React Native, TypeScript and modern frontend technologies. Experienced in SaaS, enterprise, fintech and e-commerce products, with strong skills in responsive UI development, REST API integration, debugging, performance optimisation, clean code and cross-functional collaboration. Passionate about technology, problem-solving and continuous learning.

## Core Skills

- **Frontend:** React.js, React Native, Next.js, TypeScript, JavaScript, Redux, React Query
- **Styling:** Tailwind CSS, Material UI, SCSS, Styled Components, Bootstrap
- **Backend and Databases:** Node.js, Express.js, PostgreSQL, MongoDB
- **Practices and Tools:** REST APIs, Responsive Design, Git, CI/CD, Agile, Debugging, Performance Optimisation, Reusable Components
- **Microsoft:** Microsoft Office, Power Apps, Power Automate

## Professional Experience

**Mobile Developer** | Posze | Oct 2025 – Present

- Building a fashion social app where users can advertise, connect with like-minded people, buy and sell fashion items, and gift and communicate with others.

**Frontend Developer** | Oneway | July 2024 – February 2026

- Developed and maintained scalable web and cross-platform mobile applications using React, Next.js and modern frontend practices.
- Built reusable, responsive and maintainable UI components with a focus on performance, accessibility and user experience.
- Integrated frontend applications with REST APIs, handling data flow, application state, errors and user interactions.
- Collaborated with designers, backend engineers and product teams to deliver production-ready features.
- Identified and resolved frontend performance and usability issues to improve reliability and overall user experience.
- Contributed to frontend architecture, coding standards and development practices across projects.

**Frontend Engineer (Contract)** | Upperlink Limited | October 2023 – July 2024

- Developed and maintained responsive, user-friendly web applications using React, TypeScript and SCSS.
- Built reusable, maintainable UI components and features based on product requirements and design specifications, ensuring consistent experiences across screen sizes and devices.
- Integrated frontend applications with backend APIs, managing application data and user interactions.
- Collaborated with designers and backend developers to translate requirements into functional, production-ready features.
- Troubleshot and resolved frontend issues, improving usability, reliability and overall user experience.

**Frontend Developer (Contract)** | Genesys DevStudio | May 2023 – Nov 2023

- Developed and maintained responsive web and mobile applications using React Native, Next.js and TypeScript.
- Contributed to the revamp of a telecommunications application, implementing frontend features and user interfaces across mobile and web platforms.
- Integrated applications with REST APIs, handling data fetching, application state, responses and error scenarios.
- Built reusable UI components and responsive layouts with a focus on maintainability, performance and user experience.

**Frontend Engineer** | First Bank of Nigeria | Sep 2022 – May 2023

- Developed and maintained enterprise-grade banking applications using React, TypeScript, Microsoft Power Apps and Microsoft Power Automate.
- Built responsive, user-focused interfaces for internal banking applications, translating business requirements into functional digital solutions.
- Developed business applications with Microsoft Power Apps and process automations with Microsoft Power Automate, tailored to organisational requirements.

**Frontend Engineer Intern** | NIIT | Jan 2021 – March 2021

- Gained hands-on experience in frontend engineering and built responsive web applications using HTML5, CSS, Bootstrap and fundamental web development principles.
- Applied algorithms, pseudocode and flowcharts to understand and solve programming problems.
- Built responsive layouts designed to work across different screen sizes and devices.

## Projects

- **Giftie:** E-commerce platform built with Next.js
- **Soji App:** Application built with React and TypeScript
- **Okonors Crib:** Quiz application built with React and Node.js

## Education

**MSc (Res) in AI in Business** – University of Hertfordshire, England

**B.Sc. Computer Science** – Nnamdi Azikiwe University, Awka

## Interests

- Exploring new technologies, contributing to software development projects and continuously improving technical skills
- Exploring new cultures, with adaptable communication and experience navigating diverse environments
- Reading educational literature and inspiring biographies to foster continuous learning and creative perspective
